

1000 Lumen LED Flashlight – Professional Performance and Long Range

SKU: VNFSHLIGHT1000LM

The power you need, when you need it most.

High brightness for extreme environments

The Vivanco 1000-lumen LED flashlight is designed to provide powerful and precise illumination even in challenging conditions. Perfect for professional activities, night work, or intense outdoor use.

Designed to last

The solid body and adjustable brightness make this flashlight a reliable choice for those who demand the best. Battery-powered, it's ready for use at any time. The flashlight is IP44 certified: this means it is protected against splashes of water.

For the demanding user

Where other devices fail, this flashlight guarantees high performance and continuous light stability.

- Power: 1000 lumens
- IP44 certified: protected against splashes of water
- Illuminates up to 180 meters
- Length 182mm, diameter 42mm
- Robust and non-slip design
