

VIVANCO

Motorised indoor security camera with motion tracking

SKU: VNINDOORCAM360

Smart 360° monitoring, even at night with infrared night vision

SMART REMOTE MONITORING

The **View Sphere indoor security camera** lets you monitor your indoor spaces through the Vivanco Smart app. Once connected to a power source and paired with the app, the camera will send **real-time notifications** whenever any type of motion is detected, such as people, pets or objects, thanks to its Wi-Fi connection. Human motion detection can also be activated through the app, allowing you to receive notifications only when a person is detected and excluding alerts caused by other types of movement.

DYNAMIC VIEWING AND INFRARED NIGHT VISION

The camera offers **pan rotation up to 355°** and 40° vertical tilt, expanding the monitored area without the need for continuous manual adjustment. The View Sphere can automatically follow a moving subject, providing more dynamic monitoring of your home. Its high-definition **3MP resolution** delivers detailed images, while **infrared night vision** allows you to keep monitoring your spaces even in the dark.

TWO-WAY AUDIO AND SOUND DETECTION

With **two-way audio**, you can listen to what is happening in the room and talk through the camera directly from the app, allowing you to communicate with people at home. Sound detection can also be activated, and you can set an acoustic detection threshold. When this threshold is exceeded, the camera will send a notification through the app.

STORE YOUR RECORDINGS

The **microSD card slot** lets you insert a memory card and save recordings locally. To expand your storage capacity or as an alternative to microSD storage, optional storage plans can be purchased through the Vivanco Smart app. The camera records continuously, providing complete monitoring of your home even when you are away.

KEY FEATURES

- High-definition 3MP video
- Automatic motion tracking and person detection
- Infrared night vision
- Two-way audio via app
- Horizontal pan up to 355°
- Vertical tilt up to 40°
- Vivanco Smart app connection for instant notifications

- Sound detection
- Compatible with 2.4 and 5 GHz Wi-Fi networks
- Local recording on microSD
- Dimensions: 69.1 x 74.6 x 108.7 mm

WHAT'S IN THE BOX

- 1 View Sphere
- 1 USB-A/USB-C cable
- 1 power adapter
- 1 mounting bracket
- 1 set of screws
- 1 user manual
