

VIVANCO

Compact fixed indoor security camera

SKU: VNINDOORCAMSMALL

Smart indoor monitoring with real-time notifications and a compact design

SMART MONITORING WITH MOTION AND SOUND DETECTION

The **Vision One indoor camera** lets you monitor your indoor spaces directly from your smartphone using the Vivanco Smart app. Once connected to a power source using the cable and power adapter included in the package, simply add the device to your Vivanco Smart app account. Thanks to its **Wi-Fi connection**, the camera will send **real-time notifications via the app** whenever motion or sound is detected.

Sound detection can be activated directly from the app, where you can also set an acoustic detection threshold. When the sound level exceeds this threshold, the device will send a notification through the app. Motion detection can also be customised via the app: activate human motion detection to receive notifications only when a person is detected, excluding other types of movement. When this function is disabled, the app will notify you whenever any movement is detected. This security camera is therefore ideal for monitoring your home, children, pets or other indoor spaces even when you are away.

HIGH-DEFINITION VIDEO AND TWO-WAY AUDIO

The high-definition **3MP resolution** lets you view detailed images through the app. With **two-way audio**, you can listen to what is happening at home and communicate through the camera remotely thanks to the integrated microphone.

COMPACT AND ADJUSTABLE

Its compact **34.3 x 60.7 x 116.2 mm** dimensions and weight of just 70 g make it easy to position on furniture, shelves and other surfaces. The stand allows **360° manual horizontal rotation** and **vertical adjustment up to 180°**. Once the camera has been positioned correctly, the viewing angle remains fixed. For secure positioning, the camera can be attached using the included double-sided adhesive tape.

STORE YOUR RECORDINGS

The **microSD card slot** lets you add external memory for local recording and save your footage. You can also purchase a storage plan through the Vivanco Smart app to use in addition to or instead of microSD storage. Continuous 24/7 recording provides complete monitoring of your indoor spaces.

KEY FEATURES

- Compact dimensions: 34.3 x 60.7 x 116.2 mm
- High-definition 3MP video
- Adjustable fixed viewing angle

- 360° horizontal rotation and 180° vertical adjustment
- Viewing angle: 80°
- Motion and person detection
- Two-way audio via app
- Compatible with 2.4 and 5 GHz Wi-Fi networks
- microSD card slot
- Vivanco Smart app connection for real-time notifications
- Continuous power supply via cable

WHAT'S IN THE BOX

- 1 Vision One
- 1 USB-A/USB-C cable
- 1 power adapter
- 1 card eject pin
- 1 double-sided adhesive tape
- 1 user manual
