

VIVANCO

Motion Sensor with Infrared Detection

SKU: VNMOTIONDETECTION

Detects movement even at night and sends real-time alerts

MOTION DETECTION WITH INSTANT SMARTPHONE NOTIFICATIONS

The **Watch Sense motion sensor** detects the movement of people or animals and lights up when motion is detected. For smarter monitoring, connect the sensor to your Wi-Fi network and pair it with the Vivanco Smart app to receive **real-time notifications** directly on your smartphone whenever movement is detected. Ideal for monitoring entrances, hallways, garages and other areas of your home, even when you're away. The sensor does not need to remain plugged into a power outlet, as it runs on **3 AA batteries**. When the battery level is low, you can receive a notification through the app, so you know in advance when it's time to replace them.

WIDE DETECTION RANGE, EVEN AT NIGHT

Watch Sense offers a **detection range of up to 8 metres** and a 90° detection angle, providing effective coverage of the area where it is installed. The infrared function supports motion detection even in low-light conditions, such as at night or in dark rooms. The ability to check the battery level through the app and the **self-diagnosis function** help you monitor the sensor's proper operation.

PAIR WITH THE VIVANCO SIREN FOR AN AUDIBLE ALARM

Pair Watch Sense with the **Vivanco Smart siren** (sold separately) to add an extra layer of security through an audible alarm. Once both devices are connected to the Vivanco Smart app, you can programme the siren to activate whenever Watch Sense detects movement.

TWO INSTALLATION OPTIONS

Inside the package, you'll find a complete kit for easy and versatile installation. You can choose to attach the mounting bracket to a wall using the screws or use the included adhesive strips. The recommended maximum installation height is **2.2 metres**.

KEY FEATURES

- Motion detection up to 8 m
- 90° detection angle
- Real-time smart notifications via the Vivanco Smart app
- Infrared detection
- Battery level monitoring
- Compatible with the Vivanco Echo Sense siren for audible alerts
- Dimensions: 95 x 56 x 42
- 2.4 GHz Wi-Fi connection

- Battery powered: 3 AA batteries

WHAT'S IN THE BOX

- 1 Watch Sense
- 1 3M adhesive strip
- 1 mounting bracket
- Mounting screws
