

VIVANCO

## Motorised outdoor camera with fixed solar panel

SKU: VNOUTSOL360FIX

### Dynamic 360° outdoor monitoring with solar power

#### AUTOMATIC TRACKING AND PIR SENSOR FOR MORE PRECISE MONITORING

The **Vivanco Solar View outdoor camera** provides precise, targeted motion detection thanks to its **PIR sensor** designed to detect people. When a person is detected, the camera can automatically track their movements, providing more complete monitoring of entrances, gardens and outdoor areas. Through the Vivanco Smart app, you can view the camera feed and receive **real-time notifications** for detected movements and other events.

#### HIGH-RESOLUTION VIDEO WITH COLOUR AND INFRARED NIGHT VISION

The **4MP resolution** lets you monitor outdoor areas with detailed images. At night, you can use the **infrared mode**, with a range of up to **15 metres**, or switch to **colour night vision**. Two built-in spotlights illuminate the outdoor area, while the preferred viewing mode can be selected and automated directly through the app.

You can also insert a microSD card into the dedicated slot to store recordings locally. If you need additional storage space, you can subscribe to an optional cloud storage plan through the Vivanco Smart app and use it either as an alternative or in addition to local storage. The camera starts recording only when motion is detected, helping to reduce energy consumption and storage usage.

#### WIDE MOVEMENT RANGE TO KEEP EVERYTHING UNDER CONTROL

The camera provides a panoramic viewing range of up to 270° and vertical movement of up to 90°. It can therefore adjust the viewing angle and follow detected movements, providing a wide and comprehensive view for greater control of your outdoor spaces.

#### SOLAR POWER

The **4000mAh battery** can be recharged via a USB-A/USB-C cable or through the **integrated 3W solar panel** in approximately 10 hours. The built-in solar panel helps maintain the camera's battery level and extend its operating time.

#### ACTIVATE THE BUILT-IN SIREN

With two-way audio and a built-in siren, you can keep even greater control over your outdoor spaces. Talk and listen to what is happening outside and activate the integrated siren to provide an alert when suspicious movement is detected.

#### PROTECTION IN DIFFERENT WEATHER CONDITIONS

The **IP65 rating** provides protection against water and dust, making the camera suitable for use in different weather conditions. With an operating temperature from -10 °C to +45 °C, this outdoor security camera is designed for reliable performance throughout different seasons.

### CREATE YOUR SMART HOME

The Solar View camera is compatible with **Amazon Alexa and Google Home**, allowing you to add it to your smart home ecosystem and customise its use with simple, convenient voice commands.

### KEY FEATURES

- PIR sensor for person detection
- Colour and infrared night vision
- Compatible with Amazon Alexa and Google Home
- Automatic motion and person tracking
- Integrated 3W solar panel
- IP65 rating
- Built-in alarm siren
- Panoramic viewing range up to 270° and vertical movement up to 90°
- 4MP video
- 2.4GHz and 5GHz Wi-Fi connection
- Dimensions: 95 x 116 x 53 mm

### WHAT'S IN THE BOX

- 1 Solar View camera with solar panel
- 1 USB-A/USB-C cable
- 1 bag of screws
- 1 user manual
