

VIVANCO

Fixed outdoor camera with solar panel

SKU: VNOUTSOLFIX

Smart home security powered by solar energy

SMART ALERTS FOR OUTDOOR MONITORING

The **Solar Sentinel fixed outdoor camera** combines motion detection with a **PIR sensor for human presence detection**, providing more targeted alerts directly through the Vivanco Smart app. When connected to Wi-Fi, the camera sends accurate real-time notifications to the app, allowing you to monitor entrances, gardens, terraces and other outdoor areas even when you are away from home.

BUILT-IN SOLAR PANEL

For charging, you can use the included **USB-A/USB-C cable**. In addition to wired charging, the Solar Sentinel can also be powered by its **built-in solar panel** with a maximum output of 1 W and a charging time of approximately 4 hours. Exposure to sunlight also helps maintain the battery charge during use.

CREATE YOUR SMART HOME ECOSYSTEM

The Solar Sentinel security camera is compatible with **Amazon Alexa and Google Home**, giving you greater and more direct control through voice commands. Thanks to **two-way audio**, you can also speak and listen directly through the camera, communicating in real time between the smartphone connected to the app and the area where the camera is installed.

DURABLE AND IDEAL FOR OUTDOOR USE

The **IP65 rating** protects the camera against water and dust, making it particularly suitable for outdoor use. It is also designed to operate in different climates and temperatures, from -10 °C to +45 °C.

ADJUSTABLE VIEWING ANGLE

The viewing angle remains fixed during use but can be manually adjusted during installation. With a horizontal field of view of 92° and a vertical field of view of 66°, you can customise the angle and position the camera according to your needs.

DUAL NIGHT VISION AND HD IMAGES

The **4MP resolution** delivers detailed images even in outdoor environments. At night, you can use **infrared night vision up to 10 metres** or **colour night vision** by activating the two built-in spotlights, which illuminate the surrounding area for a clearer view. The mode can be switched manually or automated through the app.

CHOOSE HOW TO STORE YOUR RECORDINGS

The microSD slot lets you add a memory card for local recording, while the Vivanco Smart app offers subscription plans for cloud storage. You can choose to use either solution individually or combine them for additional storage space. To preserve battery life and optimise storage capacity, the camera starts recording only when motion is detected.

KEY FEATURES

- Colour and infrared night vision
- PIR infrared sensor
- Built-in solar panel
- 4MP high-definition video
- Motion detection and human detection
- 6000 mAh built-in battery
- IP65-certified outdoor protection
- Local recording on microSD
- 2.4 GHz and 5 GHz Wi-Fi connection
- Wired charging option
- Real-time notifications via app
- Dimensions: 95 x 116 x 53 mm

WHAT'S IN THE BOX

- 1 Solar Sentinel
- 1 USB-A/USB-C cable
- 1 mounting bracket
- 1 bag of screws
- 1 card removal pin

VIVANCO

Fixed outdoor camera with solar panel
SKU: VNOUTSOLFIX

Technical data

EAN: 8018417543012
SKU: VNOUTSOLFIX
GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, Packaging of the item subject to the "Green Dot" recycling system, The item packaging is recyclable, Item subject to UKCA marking
Color: white
Weight: 0.8000 g
Connection: Wi-Fi
Resolution: 4MP
Solar Panel: 1W Max
Night vision: Up to 10 meters
Other features: Built-in microphone, Micro SD card slot
Certifications: Amazon Alexa and Google Home
Finishing/Feature: IP65
Included accessories: 1 Card removal needle, 1 USB power cable, screws, Stand
