

VIVANCO

Wi-Fi Siren with 90 dB Alarm

SKU: VNSIRENALARMSMART

Turns every detection into an audible alert

ONE AUDIBLE ALARM FOR YOUR SMART HOME SENSORS

The **Echo Sense Wi-Fi siren** adds an audible alert to detectors that do not have a built-in speaker. Through the Vivanco Smart app, it can be programmed to activate when specific conditions occur, such as when a sensor detects **movement, a door or window opening, or a water leak**.

90 DB SIREN WITH CUSTOMISABLE APP AUTOMATIONS

Echo Sense delivers a sound level of **90 dB at a distance of 1 metre**, turning sensor activation into an immediately noticeable audible alert. Its Wi-Fi connection allows the siren to be integrated into the ecosystem of compatible Vivanco sensors and detectors, enabling you to create automations based on the devices paired within the app. With a wireless range of **up to 45 metres**, it offers plenty of flexibility when positioning the siren around your home.

EXTRA SECURITY WITH BACKUP BATTERIES

The siren is **powered by cable**, but in the event of a power outage it can continue operating thanks to a backup power source consisting of **2 CR123A batteries** rated at 3 V each. The batteries are included in the package and should be replaced every **5 months**. The emergency battery supply can support the device for up to 2 days. Its compact dimensions of **68 x 68 x 33 mm** make it easy to position around the home. The siren is designed to operate at temperatures between 0 °C and +40 °C and humidity levels ranging from 20% to 85%.

KEY FEATURES

- 90 dB audible alarm
- Emergency power supply with 2 CR123A batteries
- Programmable operation via the Vivanco Smart app
- 2.4 GHz Wi-Fi connection
- Wireless range up to 45 m
- Wired power supply
- Compatible with various Vivanco detectors and sensors

WHAT'S IN THE BOX

- 1 Echo Sense
